# PHILOSOPHY OF MEDICAL TREATMENTS

*Dear Patient,*

it is my ultimate goal to harmonize the principles of safety, health/wellbeing and your individual requests of beauty. Any medical or surgical care will begin with a comprehensive, responsible medical consultation and a clarifying medical discussion which will answer all questions you might have. Me and my team of highly skilled doctors, will take our time for you. Only gentle treatment methods will be used – at the most professional and internationally competent level, providing optimum results.

**Our philosophy:** we consider ourselves as your companions and advisors during all periods of the treatment, starting from preparations and the operation at the highest possible technical level up to aftercare management and a perfect scar fading and softening.

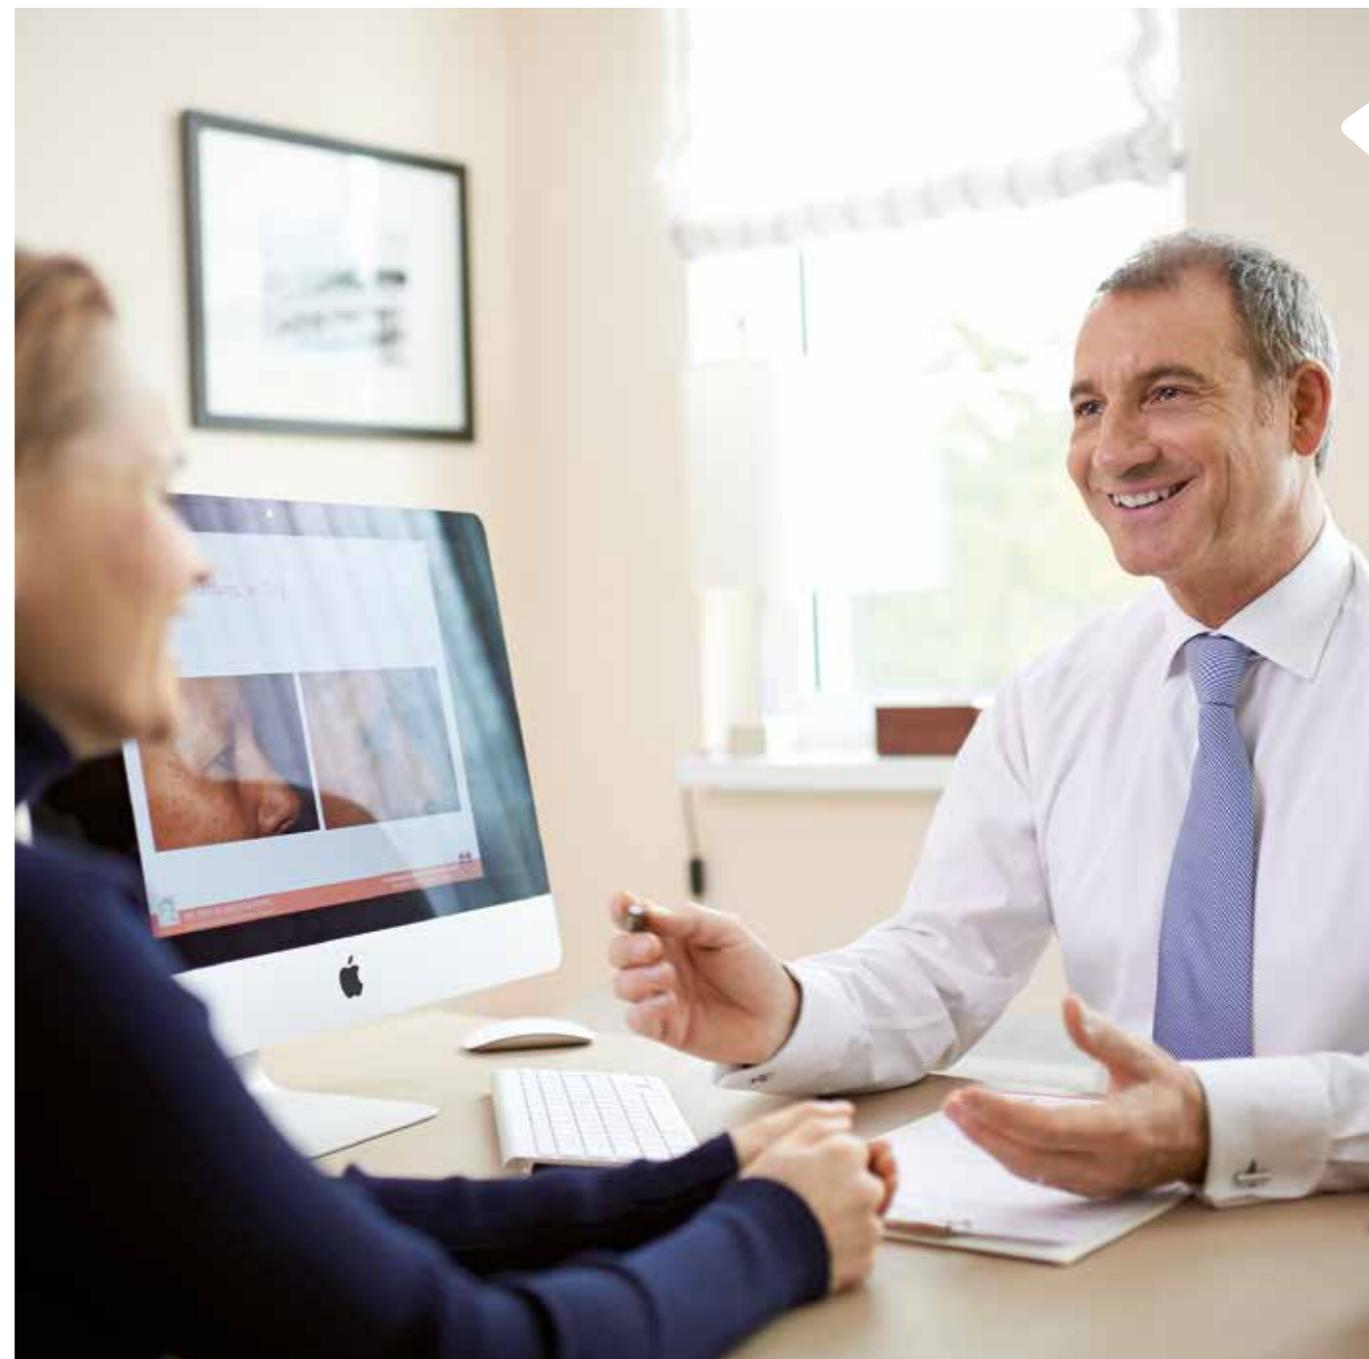

**Our offer:** service day and night and 365 **days a year**, whenever you need our support. It is our deepest wish to offer you the best possible result and to see your happy smile– this is what we stand for. **My credo:** beauty, not at any price – but individually tailored and medically advisable and reasonable solutions for a younger, fresher and natural look. I will personally ensure my medical convictions – as a plastic surgeon, medical practitioner and as a human.

Respectfully yours truly

**Dr. med. Markus Klöppel**
